REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicant's arguments of August 23, 2004 have been fully considered and found to be persuasive to overcome the prior art rejection. In particular, PCT Publication WO 98/16680 teaches ethylenediamine tetraacetic acid as the metal chelate forming compound which does not have the same adduct necessary to allowing reacting with the fiber molecule to result in the claimed critical structure as set forth in amended claims 1, 10, 15, 16, 17 and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jill M. Gray whose telephone number is 571-272-1524. The examiner can normally be reached on M-F 10:30-7:00.
